INDIAN MEDICAL ASSOCIATION Thalassery Branch

AMS
Inauguration & Panel Discussion

As part of "World AMR Awareness Week", IMA Thalassery held meeting with key decision makers of various hospitals in the region on the importance of promoting antimicrobial stewardship in their respective centres. IMA also distributed The WHO AWaRE Antibiotic book to doctors. In continuation to this, we are proceeding with an academic session for doctors under the AMS. This focuses on urgent actions to combat antimicrobial resistance (AMR), a global health threat causing nearly 5 million deaths annually due to ineffective antibiotics. AMR is primarily driven by inappropriate use of antimicrobials. The theme for this year's AMR Awareness Week is "Preventing Antimicrobial Resistance Together". In alignment to this global vision IMA Thalassery urges all the stakeholders to make bold commitments to tackle AMR at their workplace.

c) SPECIAL TRAINING PROGRAMME

16.11.2023: TRAINING OF LIONS CRUSADERS AGAINST CANCER

IMA Thalassery in association with the Lions Clubs of 318E and Malabar Cancer Care Society, Kannur trained individuals to detect early signs of Cancer eg examining the mouth for any ulcers, breast for any lumps etc and also be able to give a brief idea about the causes, signs and symptoms which may be due to cancer . It is an idea to educate the layman about this disease. Awareness classes can be given by them to small groups in their residential areas, so it will take the stigma out of the disease and make people be more open to speak out if there are any doubts. Dr.Suchitra Sudhir was one of the expert speakers at the event.
